MISCELLANEOUS READING. THE PARADISE OF RAILROADS .- A Buenos Ayres letter, of the 30th of August. furnishes

the following curious information: "The Government has determined to proceed at once with the railroad, which is already in operation for twenty miles, to the west. The concessions given to railroad companies in this country are unheard of in the United States. For example, it is usual for the State to guarantee an interest of from Otard, Hennessey, and Maestrau vintages, seven to nine per cent, per annum; to give a free right of way through private as well as public property; to give ample grounds, freedom from taxes, release from duties in transporting materials, &c. If railroad stock. with such bolstering, is not good, it cannot be good anywhere. Add to these concessions the fact that here are no hills to dig down, and but few low places to be raised; that

there is no tunneling to be done, but few

streams to be crossed, and no frosts-nor floods

to provide against, and this must be the par-

adise of railroads." A SIGNIFICANT FACT .- The fact that a foreign writer of the stamp of Frederick Bremer chooses (as is announced) to issue her latest work in this country prior to its publication in England, is an indication full of significance. It shows not only that English writers are writing for us, but that the continental authors are anxious to receive an American reputation. It proves that we are growing into literary consequence when we have the precedence of England in matters like this. And we may be very sure that all the writers who find such audiences in America that they send hither their works before they look after the English market, will by no means under appreciate the discrimination or the critical acumen of this public. All such literary people will insist that we are far from being barbarians in matters of taste. Even Jules Janin would be converted, if an edition of his works were called for .- N. Y. Ex-

PURE AIR .- It is now universally admitted that fresh air plays a more important part in sustaining life than formerly supposed .-The necessity of skilful ventilation, therefore; of living as much as possible out of doors; of preserving the air of cities pure by drainage and sanitary provisions, by avoiding miasmatic exhalations, and generally of securing a constant supply of fresh air, are conceded points. A medical writer recently affirmed that no disease can be thoroughly cured where there is a want of venti-

A pedestrian traveler through the valley of Cashmere, gives a glowing account of its prosperity. The soil is cultivated to the very top bungalows and gardens meet the eye on every side; public edifices are rebuilt, and the people are everywhere busy and contented .-'Happy Valley!" TAR AND FEATHERS .- Mr. James says the

first mention of this singular punishment oc-

curs in one of the regulations formed by

Richard Cour de Lion for the government of his troops, when about to enter upon the second crusade, that if any one should be discovered committing a robbery, he should be tarred and feathered. THE AMERICAN MEDICAL AND TOI-LET RECEIPT BOOK .- This Book contains Recipes and Directions for making all the most valuable Medical preparations in use; also, Recipes and full and explicit directions for making all the most popular and useful Cosmetics, Perfumes, Ungents, Hair Restoratives, and all Toilet Arti-

a very simple remedy, after having suffered several years with a severe lung affection, and that dread disease, Consumption-is anxious to make known to his fellow-sufferers the means of cure. To all who desire it he will send a copy of the prescription used (free of charge,) with the directions for preparing and using the same, which they will find a sure cure for Consumption, Asthma, Bronchitis, &c.
